## PREMIER APPEARS SURE OF MAJORITY

Political Observers Declare Full Returns Will Show Conservatives Elected In England

### APATHY AMONG THE VOTERS

Foggy Weather Keeps Vote Down During Morning—Majority of Ten To Fifty Is Predicted

(By United Press)

London, Nov. 15.—Premier Bonar Law appeared certain of a majority in the house of commons today after England's general election had been under way for five hours in the metropolitan districts and four hours elsewhere.

Although foggy weather kept the vote down this morning and an air of general apathy appeared to pervade the polling places in many districts, the political observers declared that unless all signs went amiss, full returns tonight would show the conservative party safely, "in" by a majority of between 10 and 50.

The parties started the day with the following strength:

Conservatives, 42.  
Asquith liberals 6.  
Lloyd George liberals 4.  
Labor, 4.  
Irish nationalists 1.

These were returned unopposed.

About thirty women were up for election today, the most prominent of them being Lady Astor, formerly Nancy Langhorne of Virginia who, at noon was said to be certain of re-election.

The new house will be composed of 615 members.

With a conservative majority in sight, interest centered in reports that certain ex-cabinet ministers, and even Premier Bonar Law himself were being defeated. Sir Hammar Greenwood, MacNamara, McCurdy and Kellaway were former Lloyd Georgians who were threatened with rejection by voters of their districts. Bonar Law's own seat at Glasgow was reported endangered at the eleventh hour by his speech Monday night in which he said that if elected he would recommend a tribunal to review the house of lords decision declaring landlords must give notice before increasing rents.

## THREE MORE HELD FOR STRING OF ROBBERIES

Indianapolis Men Charged With Being Implicated In Series Including Alert Hold-Up

### MAYOR LEW SHANK ASSISTS

(By United Press)

Indianapolis, Ind., Nov. 15.—Three additional arrests in connection with a string of forty robberies, including at least one bank hold-up, were made by police here today.

The men arrested were Charles Perdue, 62, Walter L. Perdue, 31, and Albert Isley, 39, all of Indianapolis. Each was charged with vagrancy and are held under high bond.

Mayor Shank personally assisted in the investigation. The mayor together with police officials and Dewitt Parker, a member of the alleged gang, arrested some time ago, rushed to the Isley home in an automobile to search the premises.

Among the robberies with which the gang is charged is that of the Alert, Ind., state bank last August. An employ of the bank is said to have identified Parker as one of the robbers. Six of the alleged gangsters were arrested some time ago.

### SALOON KEEPER ROBBED

Chicago, Nov. 15.—William Graham, saloon keeper was robbed of \$5,000 in cash by two auto bandits here today. Graham was carrying the money in a package to his saloon where he intended to cash the pay-checks of railroad workers. The robbers drove to the curb and opened fire on Graham who dropped the package of bills and ran.

## HUNDRED REGISTER AT THE CONVENTION

Practically Every Sunday School in County Represented at Annual Meeting Today

### NIGHT SESSION CLOSING ONE

Election of Officers Scheduled for This Afternoon—J. S. E. McMichael Speaks Tonight

The Rush County Sunday School convention, which was being held today at the St. Paul's Methodist Episcopal church in this city, will close tonight with a session, and shortly before the afternoon program began, one hundred delegates and visitors throughout the county had registered.

Practically every Protestant Sunday school in the county was represented at the meeting today, and three interesting programs were arranged for the visitors.

The election of officers was scheduled for this afternoon. The president of the association up until today was W. H. Richey of Milroy, and Mrs. Rena Warner, of this city was the secretary-treasurer.

A large crowd is looked for at the closing meeting tonight, when two addresses are on the program, one being by Nellie C. Young, state worker in the children's division, and the closing address by the Rev. James S. E. McMichael of Connersville, well known in this county as a preacher and orator.

This morning the session opened about ten o'clock with a song service in charge of O. P. Wamsley, and Mr. Richey, as president of the organization, welcomed the visitors.

The principal address this morning was by Miss Young, who spoke for over an hour on children's work

## COOLER WEATHER FOLLOWS THE RAINS

Not Expected To Continue, However, As Higher Temperatures Will Prevail Again

### TREES BUDDING WITH LEAVES

Cooler weather prevailed today, following the rains of Sunday evening, Monday and Tuesday, but freezing temperatures are not expected for the present, according to the weather forecaster. The cold spell probably will not continue very long, as there is prospect of more warm weather before winter temperatures set in.

This is regarded as one of the most unusual autumns in many years because the temperature since October 1 has average five degrees above normal. This is assigned as the reason for many trees budding with new leaves, particularly Norwood maples. Berry bushes are bearing second crops in Rush county, but this unusual phenomena is more pronounced in the southern part of the state.

The first two weeks in October, the temperature averaged from seven to nine degrees above normal for this season and during the next two weeks the temperature was below normal. It was that time that the first heavy frost appeared. During the next three weeks the temperature averaged three degrees above normal.

## EXAMINATIONS TO BE FOR ALL BABIES

Dr. Ada E. Sweitzer Assigned To Rush County For Baby Health Conference December 9 to 22

### TO CO-OPERATE WITH NURSE

In Series Of Lectures And Demonstrations, Parents Will Be Advised Of Factors In Baby's Growth

Each year the division of Child Hygiene of the State Board of Health travels over the state holding baby health conferences. Lectures are given by able speakers; demonstrations are held, and babies are examined in counties which have been organized by townships for the work.

Dr. Ada E. Sweitzer, of Indianapolis has been assigned to Rush county, for the dates of December 9 to 22, inclusive, and arrangements are being made to carry out the outlined plans most successfully.

These examinations are open to Indiana babies, without regard to beauty, social status or health. Only babies having infectious diseases are excluded.

Parents are advised concerning factors which effect a baby's growth and development. Some times the baby must traverse a long and difficult way before health and strength are his. Most frequently a suggested change in habits or diet starts the baby on the road to healthy manhood or womanhood.

All this information is given free of charge to the parents, in these examinations, all defects are noted and proper corrections suggested by the physician in charge and a summary of the results of the examination kept for the future record. A similar card is also given to the mother of each child examined.

In Rush county on the several dates assigned to the different townships, moving pictures will be shown, the first evening or the evening following the day of registration and examination of children, at the place which will be selected and announced.

At the last meeting of the Rush County Medical Society, November 10, Dr. Sweitzer explained fully to all the doctors present the details of the conference. The invitation all the doctors present the details Child Hygiene Department several months ago, but because of other engagements they were unable to accept until this date.

Dr. Sweitzer will work with Miss Grace Ewing, County Red Cross nurse, who invites the cooperation of all parents in the interest of better Rush county babies.

## ANTI-STRIKE BILL TO BE INTRODUCED

Senator Cummins To Propose Keystone Measure In Program Of Industrial Legislation

### FOR THE EXTRA SESSION

By LAWRENCE MARTIN  
(U. P. Staff Correspondent)  
(Copyright 1922, by U. P.)

Washington, Nov. 15.—An anti-strike bill will be introduced by Senator Cummins, Iowa, early in the extra session of congress which meets Monday.

This will be the keystone measure in a program of industrial legislation which Cummins, as chairman of the senate interstate commerce committee, will propose.

He will try to get President Harding to urge enactment of this program, either in his message to the extra session or to the regular December session. Cummins will confer with Harding today or tomorrow.

Republican legislators were amazed to hear Cummins determination to press for anti-strike legislation as a means of preventing further railroad strikes. Most of them regard the present as the poorest time in recent years to suggest such a thing and there is little likelihood that Cummins' bill will receive serious consideration for a long time.

## DEATH PENALTY NOT TO BE ASKED

Statement By Venireman In Herrin Mine Case Opposes Capital Punishment No Bar

### ONLY THREE JURORS IN BOX

Prosecution Has 86 More Preemptory Challenges To Use In Barring Miners And Relatives

Marion, Ill., Nov. 15.—The death penalty will not be demanded by the state in the trial of five men accused of participation in the Herrin mine massacre, it was indicated by prosecuting attorneys today.

While every venireman is asked his opinion on capital punishment that he would not vote for the death penalty does not bar him.

One of the three men tentatively passed by both the defense and prosecution has voiced his disapproval of the death penalty.

Only three jurors of the first panel were in the box as the third day's examination of veniremen got under way, in a half empty court room.

The prosecution had eighty-six more preemptory challenges to use in barring union miners and their relatives in an effort to get a non-union jury while the defense still had ninety-nine challenges.

Voices of attorneys were frayed and hoarse as they drowned their questions regarding union membership of repeating dozens of times a day questions regarding union membership opinions on collective bargaining, the lawfulness of the Herrin killings and the necessary queries to ferret out connection with the union by kinship, marriage or livelihood.

It seems inevitable that the prosecution will be forced sooner or later to accept miners on the jury, as nearly 90 per cent. of the men examined have some connection with mining.

## TWELVE PRISONERS KILLED IN QUAKE

New Series of Earth Tremors in Copiapo District of Chile Causes Wall to Fall

### SOLDIERS BURIED, ESCAPE

Santiago, Chile, Nov. 15.—Twelve prisoners were killed and a squad of soldiers buried beneath falling walls, when a new series of earthquakes occurred in the Copiapo district early today.

The soldiers were searching among ruins for victims of last Saturday's terrific quakes, when the new shock occurred. The falling walls of buildings covered the men but most escaped without serious injury.

Soldiers are patrolling the various villages and towns that were caught in last week's horror to prevent pillage.

Contributions for quake sufferers are being received at government headquarters from all parts of the country.

## RELEASED ON A \$500 BOND

Alonzo Flowers, Accused of Assault And Battery, Out Of Jail

Alonzo Flowers, colored man who was held on an order from Bernie Payne, Indianapolis, was released from jail Tuesday on a \$500 bond, and he will be held for the authorities from Franklin county. The Rushville man was arrested as the result of an automobile accident Sunday night in Andersonville, when he was driving a machine and is alleged to have run into a Ford touring car containing Mrs. Payne and her two sons, Ellwood and Warder.

Mr. Payne, the owner of the Ford, which was said to have been demolished, has filed a charge of assault and battery in the court at Brookville, because the accident happened outside of Rush county.

## THE RED CROSS DRIVE

By J. H. SCHOLL

The Red Cross Society has a record of fine work accomplished and it continues to be of great service to all the world. To keep the Red Cross Society ready for emergency work should be the aim of every citizen. But this organization has a plan of preventing sickness as well as relieving the sick and distressed. One only needs to know the work of the Rush County Red Cross nurse and that of the Rushville city nurse to be convinced of the great value of the Red Cross Society to local needs. The Rush County nurse is supported by the local Red Cross organization. The Rushville city nurse is supported by various organizations but a portion of the salary is paid by the Red Cross Society. The teaching of health is as important as the other subjects of study and the Red Cross leads and directs this kind of work. For these and many other reasons let us all support the Red Cross.

## NAVAL RECRUITING PARTY DUE FRIDAY

Navy Truck "Hoosier", Which Is Touring The State, Will Remain Until Next Tuesday

### TO SHOW NAVY'S ADVANTAGES

Opportunities For Advancement Are Outlined In Appeal For Recruits Made By Officers

The U. S. Navy recruiting truck, "Hoosier", which is making a state wide tour in the interests of securing recruits for the navy, will visit Rushville Friday and remain until Tuesday night. The truck is coming here several days ahead of the schedule, as announced several weeks ago, when it left Indianapolis.

In charge of the truck is Chief Quartermaster, P. S. Lufsky. When it arrives here it will be stationed on the court house square, and people are invited to visit it, and obtain literature and information. The truck comes here from Greensburg and will go to Connersville from Rushville.

Men between eighteen and thirty-five years of age who are citizens of the United States, of sound mental and physical condition, good moral character and able to read and write the English language, find opportunities in the Navy.

Pay ranges from \$21.00 per month for apprentice seamen, to 157.50 for chief petty officers, with board and lodging and free medical attention.

The following trade schools are open for recruits upon completion of their training: Machinist; Electrician (both radio and general); Yeoman (clerical duty); coppersmiths; and musicians.

Deserving men showing aptitude for a special line of work are encouraged in getting assigned to the school that gives instructions along the lines of his tendency. A man's pay continues while he is under going instructions and there is no tuition to pay.

All apprentice seamen are transferred to the naval training station at Hampton Roads, Va., where they are instructed in the various duties of a man-of-warman, and where they remain for a period of eight weeks getting the ground work necessary to make them useful on board ship and to fit them for further instruction along trade or vocational lines.

The food everywhere in the naval service is wholesome and the best obtainable—being government inspected.

As proof that the Navy life is highly desirable to those who are acquainted with it's conditions, an astonishingly heavy percentage of the personnel are re-enlisted men. A cruise in the navy will find the average man better prepared to meet the world and handle the affairs of life than will the experience obtained

## TURK DELEGATE TO MEET POINCARE

Ismet Pasha and French Premier Will Not Discuss Near East Crisis, it is Reported

### RENEWS WITHDRAWAL THREAT

French Accept British Proposal for Preliminary Allied Agreement on Peace Terms

By WEBB MILLER  
(U. P. Staff Correspondent)

Paris, Nov. 15.—Ismet Pasha, delegate of the Angora government to Lauzanne, arrived here today. Late this afternoon he will meet Premier Poincare, but it is understood that the conference will not include discussion of the Near East crisis.

Upon his arrival, Pasha renewed his threat to withdraw the Turkish delegation from the proposed Lauzanne conference if the allies appeared as a single unit with an ultimatum for the Turks.

"If we are forced to face an allied ultimatum it will be impossible for us to enter discussion as such action will be an infringement upon our national rights," said Ismet. "If this is the case our trip will be futile. We do not want any foreign dictation."

Shortly before Ismet's arrival, it was announced that the French had accepted the British proposal for a preliminary allied agreement on terms to be made to the Turks at the Lauzanne conference.

It was learned that the British government within the next 24 hours will send a message to French leaders outlining its views on the Turkish demands. The French reply will be made immediately, it was stated and about Saturday it is expected that Foreign Minister Curzon will come to Paris for a conference with Premier Poincare.

## SEVEN ACCUSED WITH AUTO LAW VIOLATIONS

One Charged With Operating Car Without License And One With Driving Past School Hack

### FIVE SPEEDERS IN THE LIST

Seven affidavits were filed this morning in Justice Stech's court against alleged automobile law violators, five of them being for speeding through the town of Glenwood, and the other two against local men.

Virgil R. Thompson was arrested on a charge of unlawfully operating an automobile without license plates, and pleaded not guilty. His trial was not set, and he was permitted to go until his case is heard.

Of the other affidavits, one is preferred against Charley Taylor of this city, on a charge of driving his machine past a school hack that was loading children.

Dan Laughlin, town marshal at Glenwood, has filed the charges of speeding against the following five alleged violators: Gilbert Best, Franklin, Ind.; J. L. Sanders, Oxford, O.; Clarence Wilhite, 638 W. 20th, Connersville and "John Doe," Mars Hill.

## OFFICIAL MAJORITY IS 603

Henry and Rush County Sheriff's Canvass Joint Representative Vote

Sheriff Yost of Henry county came here this morning, and with Sheriff Hunt of this county, canvassed the vote for the election of joint representative from the counties, in which the two sheriffs found that Charles M. Trowbridge, republican won out in the race with Strode Hayes, by a majority of 603 votes. After the sheriffs had declared Trowbridge legally elected, the facts were certified to secretary of state and also to Mr. Trowbridge. The affair today was in compliance with the state law, which states that the sheriffs must meet and certify the vote within ten days after the election.

## CORN CROP AVERAGE PUT AT 49 BUSHEL

One Bushel Below That of Last Year  
According to Estimate of the  
State Statistician

### 84 PER CENT USED FOR GRAIN

The corn crop in Rush county averaged forty-nine bushels per acre, according to the November crop report issued by G. C. Bryant, Indiana agricultural statistician. The average in this county last year was forty-eight bushels. The crop did not yield as heavily as expected early in the season, when prospects were good for an average of more than fifty bushels.

Few counties in Indiana, the crop report shows, averaged better than fifty bushels to the acre. One of these is Union, which had a corn crop average of fifty-six bushels, and Hancock, with an average of fifty-one bushels. Morgan averaged fifty. The only other county close to the yield in Rush was Tipton, which shows an average of forty-eight bushels. The other range from twenty-eight to forty-four bushels.

Potatoes averaged ninety-four bushels in Rush county, the crop report shows, which is above the average for the state. A few made over one hundred bushels, but the majority of them were under ninety bushels.

Rush county clover seed averaged nine-tenths of a bushel to the acre which was below the state average. It is estimated in the report that eighty four per cent of the corn crop in this county was gathered for grain, the remainder being hogged down or cut for silage. This is higher than the state average.

## NEW PREMIER IS SOUGHT

Germans After Leader Following  
Downfall of Wirth Government

Berlin, Nov. 15.—German leaders today sought a combination of political groups sufficiently stable to produce a premier. The Wirth government last night after nineteen stormy months of office.

Refusal of the united Socialists to join a coalition which included the German party, which is backed by Hugo Stinnes and other conservative elements, was the immediate cause of Wirth's downfall. Without the Socialists he had not a sufficient majority to carry on in face of adverse financial conditions and the reparations tangle.

Indianapolis, Ind., Nov. 15.—The state conservation department has issued and has already for free distribution pamphlets containing motor logs from Indianapolis to each state park, Turkey Run in northern Parks county; McCormick's Canyon park in Owen county; Clifty Falls Park near Madison, and Vinegar Mills park half way between Vernon and North Vernon.

The logs give the mileage and state roads from the capital city to each of the parks, and the pamphlets contain a brief description of what each park contains, hotel facilities, et cetera. Turkey Run Park, the first of the Indiana chain, is equipped to care for visitors in mid-winter the same as summer, as one of the hotel buildings has steam heat.

The motor logs are given out of Indianapolis, Richard Lieber conservation director, explained, because to reach any of the parks it is nearly always the shortest and best route through this city.

## DEATH IN THE FAMILY WAS A GALA OCCASION

### DOZEN POISONINGS CHARGED

Chicago, Nov. 15.—A death in the family of Mrs. Tille Klimek or Mrs. Nellie Sturmer, alleged perpetrators of a dozen poisonings, was a gala occasion, neighbors told police authorities. They are accused of killing relatives to collect insurance.

Prosecutor William McLaughlin gathered evidence that while one of Mrs. Klimek's husbands was ill, she sat beside his bed sewing on a mourning garb and assuring the patient he would not live.

"I found that Mrs. Klimek bought a coffin for \$30 as was a 'bargain', while her husband was still alive," McLaughlin stated. "After his death she played dance music on the phonograph in the room where the body lay."

The woman will appear for preliminary hearing on November 23. The evidence will be presented to the grand jury Friday.

## STONE LINES UP WITH SWITCHMAN'S UNION

Open Warfare Brewing For Some  
Time In "Big Four" Railroad  
Brotherhood Comes To Climax

### IS OPPOSED BY W. G. LEE

Cleveland, Ohio, Nov. 15.—Open warfare brewing for sometime in the "Big Four" railroad brotherhood came to a climax today with Warren F. Stone, grand chief of the brotherhood of locomotive engineers lined up with the switchmen's union of North America in an attempt to take switchmen members from the Brotherhood of Railroad Trainmen, headed by W. G. Lee.

With Stone in a new triple alliance which apparently was suggested, is T. C. Cassen, president of the switchmen, and D. B. Robertson president of the Brotherhood of Locomotive Firemen and Enginemen.

L. E. Sheppard, president of the order of railroad conductors is aligned with Lee.

Stone issued a circular appeal to all members of his organization to assist Cassen in bringing the 40,000 switchmen in Lee's organization over to the switchmen's union.

The break in the "big four" had its inception during the shopmen's strike.

Stone and Robertson informed members that when their lives were endangered by guards or defective equipment, to stay away from railroad property.

(By United Press)

Terre Haute, Ind., Nov. 15.—An alarm clock hindered a \$10,000 fur robbery here early today. The robbers had the furs stolen and an automobile waiting in an alley in the rear of the Boyd Fire Company, when the clock set to awaken a custodian in the building, went off on the floor above.

Apparently the robbers figured it was a burglar alarm and fled leaving even the automobile. It was identified as a stolen automobile.

## Sulphur Is Best To Clear Up Ugly, Broken Out Skin

Any breaking out or skin irritation on face, neck or body is overcome quickest by applying Menthosulphur, says a noted skin specialist. Because of its germ destroying properties, nothing has ever been found to take the place of this sulphur preparation that instantly brings ease from the itching, burning and irritation.

Menthosulphur heals eczema right up, leaving the skin clear and smooth. It seldom fails to relieve the torment or disfigurement. A little jar of Rowles Menthosulphur may be obtained at any drug store. It is used like cold cream.

## THE ODD 25

If, out of every one hundred people in civilized lands, seventy-five were minus one hand, one foot, one eye, or one ear, every one would marvel.

Yet it is a fact that today seventy-five people of every one hundred are defective in what is undoubtedly our most precious gift—the faculty of sight.

There are only twenty-five people in every one hundred who have perfect sight. The remainder are, or should be, wearing glasses in order to correct the deficiencies of their vision.

If you are not absolutely positive you have perfect vision, have your eyes examined right away, and be sure.

## The "Mother of Medicine"

Isis, the Queen and afterwards the Goddess, was called the "Mother of Medicine." In ancient Egypt, centuries before Christ, women were skilled in medicine. They knew the great value of medicinal plants.

Hippocrates, the "Father of Medicine," many centuries later, knew less of the merit of vegetable drugs than did the women of ancient times.

Lydia E. Pinkham, nearly fifty years ago, gave to women her vegetable Compound, now known everywhere as Lydia E. Pinkham's Vegetable Compound. This is a woman's medicine for woman's ailments, prepared from medicinal plants.

## Increase Use of Autos

Nothing demonstrates the increased use of automobiles more than a comparison of the record of automobile license plates issued in 1913 and 1921. Eight years ago the total number of automobiles in use in Indiana was 44,738, according to the license plates issued. But in 1921 400,342 plates were taken out by automobile owners, an increase in eight years of 355,604 automobiles.

The growth of the use of the automobile for pleasure and business purposes forms an interesting study, but it is no more interesting than a history of the development of the state automobile department.

When a bad man does a good thing, he gets very little credit for it.

There are many more men who think they are lawyers than men who really are.

The long distance that money can go is longer still when you are chasing it.

When there is a good reason for doing a thing, why bother about precedents?

A man's allegiance to his country ought at least to equal his allegiance to the cash drawer.

## HEZ HECK SAYS:

"Crooked things cast crooked shadders."

Indiana paid nineteen and one-half cents a pair for license plates in 1916 before the United States entered the war and when the price of steel was the lowest in history, being quoted at \$1.85 per hundred pounds. They were contracted for during the administration of Former Governor Ralston for the year 1917.

In 1918, during the world war when steel was quoted at \$7.00 per hundred pounds, the contract was let by Ed Jackson, secretary of state at eighteen and three-fourths cents a pair. The cost of plates in 1919, with steel at the same high price, was further reduced to sixteen cents a pair, and in 1920 and 1921, to twelve cents a pair. They are now being made at the state prison.

The present contract for license plates with the price of steel in 1921

quoted at \$4.00 per hundred pounds, was made at the lowest price in the history of the state automobile department, eleven to twelve cents a pair. Comparing the last four years with the first four years (1913 to 1917), it is found that the state has saved \$102,002.50 in the purchase of license plates.

In proof of the business administration of the department, the notary fees collected from the per attention. It was the rule before Governor McCray came into office that the notary fee collected from the automobile owners when they obtained licenses, were not retained by the state. In 1917 Mr. Jackson instituted the rule that all notary fees collected by the automobile department be returned to the general fund of the state. Since that time there has been rightfully returned into the state treasury a sufficient amount from notary fees alone to pay the salary of the secretary of state for the past five years, leaving a surplus of over \$3,000. The collection of fees in 1921 alone amounted to \$8,670.75.

Many a man who has come to us for a clean and press has been asked this very question, however.

M'Graw Getting Colorful Stars

By HENRY L. FARRELL (United Press Sports Editor)

New York, Nov. 15—In possession of a "million-dollar" infield and with the promise of an outfield almost as valuable, the dopesters can see nothing but a pitching role for Jack Bentley, the recently acquired all-around star from Baltimore.

The Giants need pitchers, if they are going to win their third successive pennant and if Bentley is one-third as good as he is said to be, he will be worth the \$50,000 or \$75,000 that the New Yorkers are reported to have paid for him.

Bentley comes near to being the only attraction that the Giants could get to offset the drawing power of Babe Ruth. Bentley and Ruth have much in common. Both are fine left-handed pitchers, with Bentley having perhaps the edge; both are home run hitters; both are first basemen and outfielders; both have a lot of temperament and both are from Baltimore.

From other angles, Bentley is a more consistent hitter and a better base runner. He is younger and his star is just in its ascendancy, while Ruth's is not only dimming but threatens to go out.

If Bentley should happen to do all the things in fast company next year as well as he has been doing for three years in the minors and if Ruth has slipped as far as is generally believed, the Giants have a fine chance to take a lot of business away from the new Yankee stadium and from the standpoint of modern

baseball, the "gate" is always the first to be considered.

With a young \$75,000 outfielder—Jimmy O'Connell, from the Pacific Coast—and with Bentley, a \$50,000 star filled with color as well as a whole team that is regarded as the best in baseball, the Giants have enough drawing power now to induce the Yankee owners to say some strong words in the vicinity of one Babe Ruth.

If some reports are to be believed, the powerful words have already been said within hearing distance and Ruth, according to some of his close friends, is going to spend the winter season in semi-training around his New England farm.

If he elects to follow that course this winter, Ruth will have a thinner waistline and a fatter pocket-book next spring. He went to Havana last winter and dropped \$100,000—'tis said.

Some stories have been going around that McGraw bought Bentley only to use him as trading material with the Cincinnati Reds for Eddi Roush.

The Reds wanted Bentley to the extent of \$40,000 bid and they apparently do not want Roush. However, with Cunningham and O'Connell available, it doesn't seem logical that the Giants should be desirous of Roush.

Cunningham showed in the world's series that he is one of the best young prospects in the league. He has some faults, of course, but he hasn't had the experience and when it comes down to that fine point—who are the perfect outfielders and how did they become perfect?

JONES METHOD TO BE GIVEN A TEST

Coaching That Has Been Under Criticism at Yale Will be Matched Against Tiger

OLD ELI SHOWS IMPROVEMENT

At Present it Looks Like a Tie. But Favorite Will Bob up Before Game Time Saturday

By JASKSON V. SCHLOZ (U. P. Staff Correspondent)

New York, Nov. 15—The Jones method of coaching which has been under some criticism, will have its acid test Saturday when Old Eli goes against Princeton in the second of this season's big three games.

Yale has been showing great improvement of late and from where we sit it looks as if the Bull Dog and the Tiger would play a tie.

Of course, a favorite will pop up before game time. There has to be a favorite because the general football fan, as in any other sport, demands something to wait about if the favorite loses or an excuse to stage a snake dance if the under dog comes through.

Of course no one expects a favorite to win this season but that has nothing to do with the matter. Some of the more daring or fortunate, critics will have the opportunity to spread their "I told you so's" while the majority—who made the favorite—spend several days explaining why they were mistaken.

Princeton is expected to take advantage of the breaks and has shown ability to do this in practically every game this season. There will be breaks in the Yale game as in any other game and if the Tigers are on the job, as usual, it looks like a score.

On the other hand the Bull Dogs have shown a slowly increasing strength that will, in all probability, burst forth into something resembling real football in their first big three game. With the unquestionable strength and quality of Yale's material in the line and backfield, inspired by contact with an ancient rival, it is doubtful if the Tigers can keep their goal from being crossed.

WEEKLY STORE NEWS

From ALLEN'S

We have never believed in special sales. When an article comes into our stock we price it as low as possible and that is our price every day. For example an article that we sell for 23c might be sold on Saturday for 20c and for 25c the rest of the week and the net profit would be about the same, but how about those who pay 25c, will they feel that they have been fairly treated?

Our space never permits us to mention but a very few of the things we sell. We try to select articles that are representative of the many varieties of goods in our store.

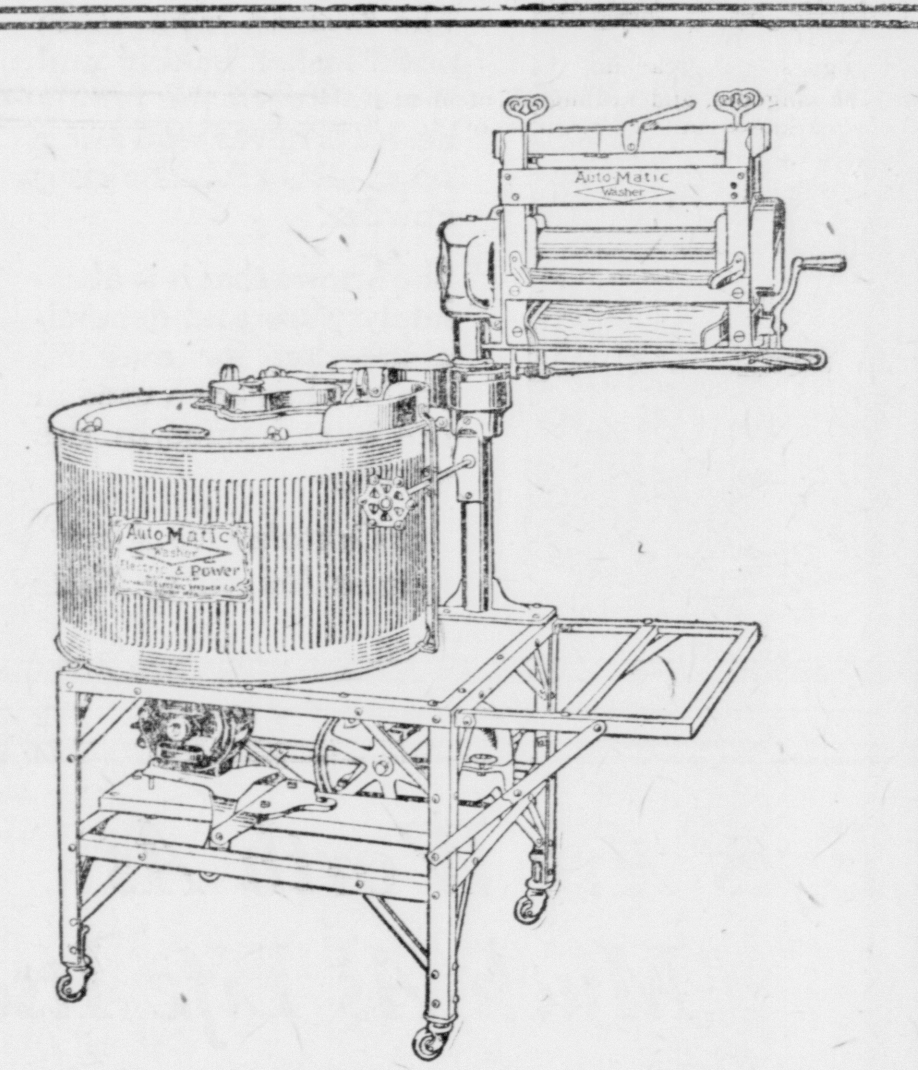

Most of the new canned goods are in. We will be glad to quote prices on case lots or by the dozen.

We are expecting a shipment of new California English Walnuts by the middle of the week. No. 1 soft shells will sell for 35c per pound. Fancy budded, 40c. We have imported nuts which are very good for a much lower price. Brazil Nuts (cream nuts) are much lower this year. We have new ones for 15c per pound.

Our fruit and vegetable display always consists of the best to be had. This week we have fancy cranberries at per pound 15c. Large ripe Grapefruit, each 10c. Ripe Florida Oranges, per dozen, 50c, 60c, 70c. Extra fancy Grapes per pound, 15c. Grimes Golden or Northern Spy Apples per pound 7½c; fancy cooking apples, 5c. Genuine Jersey Sweet Potatoes, 4 pounds 25c. Virginia Sweet Potatoes, 8 pounds, 25c. Onions, 3 pounds 10c. Cabbage per pound, 3c. Fine Potatoes, per peck, 25c, per bushel 95c.

## Eyes Are Worth As Much As Life Itself

If you become totally blind, accident insurance companies will pay you as much as if you were killed. They look upon blindness as a sort of living death. Blindness has a horror for everyone.

Yet investigations indicate that AT LEAST HALF OF US ARE PARTLY BLIND. Scientists estimate that seven out of every ten people do not see correctly. Only two of these seven are wise enough to wear glasses that produce accurate eyesight. The other five are going through life handicapped by dangerous, unnecessary eyestrains.

These strains disturb the entire nervous system. They cause headaches, "nerves," irritability and depression. In fact, their effects are so far reaching that every part of the body works with reduced efficiency. Health, happiness and ability are all governed by the condition of your eyes.

Good glasses accurately fitted, both lenses and

frame, may be just the thing you need to tone up your system and increase the effectiveness of your work.

To neglect the eyes is to take chances with your most precious bodily possession. Save your EYES. Have poor eyesight corrected before it injures your health. Consult an OP-TOM-ETRIST regularly.

### EVERY THINKING PERSON KNOWS

that when any of the delicate parts of the eye mechanism are abnormally formed or become overtaxed and strained from abuse or weak from advancing age, serious defects in vision are the result.

Expert professional advice such as YOUR OP-TOM-ETRIST is qualified to give should be sought if you wish to SAVE YOUR EYES.

The op-tom-etrist is not only qualified for this important service, he is examined as to his fitness and licensed by the State of Indiana to practice OP-TOM-ETRY.

Therefore, when you consult an Optometrist you are protecting your most precious possession—EYESIGHT.

through nearly any other pursuit for the same duration. Occasionally it is found that men are totally inapt for the service and for this reason they sometimes become dissatisfied. For such men, certain provisions have been made where by they can obtain their releases.

Only men of good habits willing to work, and desirous of advancement, are sought. Dissolute, unreliable and non-progressive men are not wanted and the navy will not tolerate them in its service, but weeds them out when opportunity affords.

All eligible young men interested to call on the recruiting party for to call on the recruiting party for further information.

Men who have it under consideration to enlist are requested to apply to the traveling recruiting party as soon as possible after its arrival in the city, in order that transportation arrangements, etc., can be made in ample time.

# The Evidence of a Better Understanding

THE last four years have marked the growth of a better understanding between the Standard Oil Company (Indiana) and the public it serves. This better understanding is evidenced by the fact that four years ago there were but 4623 stockholders on the books, whereas today the number has increased to 26,560.

Misunderstanding necessarily disappears when people are frank. In the last four years the Standard Oil Company (Indiana) has published in a frank and open manner a vast amount of important news concerning its methods of refining and distributing petroleum products. It has explained the factors upon which prices are based; it has given figures which explain why the demand for its products, and especially for gasoline, is continually increasing; and by its frankness the Company has prospered.

The efficient and economical refining and distribution of petroleum products is a highly specialized business requiring years to develop. The very permanency of the Standard Oil Company (Indiana) is a dominant factor in the high quality of its service. Because of this permanency the management of the Company has been able to mature and carry out plans for service which required long periods of time and great sums of money to accomplish.

In its efforts to provide a perfect service, the Standard Oil Company (Indiana) has developed a constructive and comprehensive Industrial Relations Plan to promote harmonious relations between the management and employee. This program includes adequate retirement annuities, modern safety devices, continually improved working conditions, and a practical plan whereby employees are enabled to accumulate savings and invest them.

This program tends to make all employees better citizens and better workers, vitally interested in serving the public.

The Standard Oil Company (Indiana) believes in fair dealing toward all, the public, its customers, its competitors, and its employees.

The Standard of Comparison

## The Buick They Judge By

The Model "45" Six-Cylinder Touring—\$1195

The famous Buick five-passenger, six-cylinder open model today, as in past years, sets the standard of automobile value.

It is the motor car by which others are judged because it represents the best of each year's developments in mechanical refinements, appearance and riding comfort.

The Buick Model "45" combines the characteristic Buick qualities of performance and stability with distinctive beauty and a completeness of appointments not to be found elsewhere.

We'll be pleased to give you a demonstration any time.

## ENGLAND VOTES ON HOUSE OF COMMONS

There Will be 615 Seats In The New  
Parliament Division. 96 Less Than  
The Former One

### ARE MILLION MORE VOTERS

Fate Of Lloyd George Will Be De-  
termined by Count of Ballots—  
Many Candidates Aspire

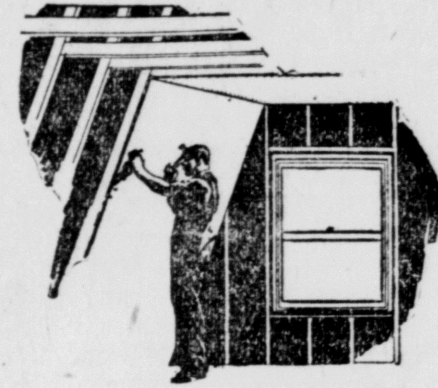

By J. W. T. MASON  
(Written for United Press)

Voting began this morning in  
Great Britain for reelection of a new  
House of Commons. The polls will  
close at 8 p. m. and the result will  
be known some time tomorrow. The  
balloting is secret.

The votes will be counted in each  
constituency immediately after the  
closing of the polls and the suc-  
cessful candidates will be named to  
the waiting crowds. It is the British  
custom for all candidates in each  
constituency to hear the results to-  
gether and for the unsuccessful ones  
personally to congratulate the victor.

There will be 615 seats in the new  
Commons. This is 96 less than in the  
old parliament, due to the termina-  
tion of the south of Ireland rep-  
resentation, following the establishment  
of the Irish Free State. The pro-  
testant north of Ireland, however,  
will be represented in the Commons  
because the Ulstermen have refused  
to abandon their intimate imperial  
relationship. North Ireland has 13  
constituencies, England has 492,

## SHUSTER & EPSTEIN

Blue Front 115 W. Second St.  
"A little off Main street but it pays to walk."

1,266 candidates in the field. They  
are divided into six groups: Con-  
servatives, or Bonar Law Unionists;  
National Liberals or Lloyd George's  
party; Independent Liberals, or As-  
quith's party; Labor party, or mod-  
erate wing of the workingmen; In-  
dependents, embracing all who hold  
allegiance to none of the foregoing.

About thirty women are among the  
candidates, headed by Lady Astor,  
and including Lady Wintringham,  
Lady Cooper, Lady Howard Stepney,  
and Mrs. Arthur Bourchier, the act-  
ress.

The election is being fought on a  
new register, which adds nearly a  
million voters to the number entitled  
to vote at the last previous election,  
in 1918. Eight million women will  
cast their ballots today for their  
second parliamentary election since  
their enfranchisement. The total  
number of persons entitled to vote  
approximates 22,000,000. At the  
1918 election, only fifty per cent. of  
the registered voters went to the  
polls. This was largely due to the  
fact that 106 constituencies were un-  
contested.

The chief interest in today's con-  
test, apart from the effort of the  
Conservatives to secure an absolute  
majority over all other parties, is  
in the showing that will be made by  
the Labor Party. Membership in  
British trades unions declined last  
year from 8,500,000 to 6,800,000,  
due partly to unemployment and  
partly to desertions by women work-  
ers.

There were 76 labor members in  
the last parliament. The labor lead-  
ers hope to secure 200 seats at to-  
day's elections and they will be  
greatly disappointed if they don't  
have at least 150. Should the num-  
ber be less than 100, the result will  
mean a violent turn on the part of  
the British voters against the radical  
platform of the laborites. If labor  
approximates 200 victories, probably  
nothing can prevent a labor govern-  
ment coming into power at the next  
following election.

Lloyd George's partisans are not  
expected to be numerous in the new  
House of Commons. If the Lloyd  
George liberals hold the balance of  
power, it will be surprising. To re-  
gain his political prestige. To re-  
George will probably have to form an  
amalgamation with another party.  
Whether he will unite with the As-  
quith Liberals or with the Con-  
servatives he doubtless doesn't know  
yet, himself.

# CORN CROP AVERAGE PUT AT 49 BUSHELS

One Bushel Below That of Last Year  
According to Estimate of the  
State Statistician

## 84 PER CENT USED FOR GRAIN

The corn crop in Rush county averaged forty-nine bushels per acre, according to the November crop report issued by G. C. Bryant, Indiana agricultural statistician. The average in this county last year was forty-eight bushels. The crop did not yield as heavily as expected early in the season, when prospects were good for an average of more than fifty bushels.

Few counties in Indiana, the crop report shows, averaged better than fifty bushels to the acre. One of these is Union, which had a corn crop average of fifty-six bushels, and Hancock, with an average of fifty-one bushels. Morgan averaged fifty. The only other county close to the yield in Rush was Tipton, which shows an average of forty-eight bushels. The other range from twenty-eight to forty-four bushels.

Potatoes averaged ninety-four bushels in Rush county, the crop report shows, which is above the average for the state. A few made over one hundred bushels, but the majority of them were under ninety bushels.

Rush county clover seed averaged nine-tenths of a bushel to the acre which was below the state average. It is estimated in the report that eighty four per cent of the corn crop in this county was gathered for grain, the remainder being hogged down or cut for silage. This is higher than the state average.

# NEW PREMIER IS SOUGHT

Germans After Leader Following  
Downfall of Wirth Government

Berlin, Nov. 15.—German leaders today sought a combination of political groups sufficiently stable to produce a premier. The Wirth government last night after nineteen stormy months of office.

Refusal of the united Socialists to join a coalition which included the German party, which is backed by Hugo Stinnes and other conservative elements, was the immediate cause of Wirth's downfall. Without the Socialists he had not a sufficient majority to carry on in face of adverse financial conditions and the reparations tangle.

Indianapolis, Ind., Nov. 15.—The state conservation department has issued and has already for free distribution pamphlets containing motor logs from Indianapolis to each state park, Turkey Run in northern Parks county; McCormick's Canyon park in Owen county; Clifty Falls Park near Madison, and Vinegar Mills park half way between Vernon and North Vernon.

The logs give the mileage and state roads from the capital city to each of the parks, and the pamphlets contain a brief description of what each park contains, hotel facilities, et cetera. Turkey Run Park, the first of the Indiana chain, is equipped to care for visitors in mid-winter the same as summer, as one of the hotel buildings has steam heat.

The motor logs are given out of Indianapolis, Richard Lieber, conservation director, explained, because to reach any of the parks it is nearly always the shortest and best route through this city.

## DOZEN POISONINGS CHARGED

Chicago, Nov. 15.—A death in the family of Mrs. Tillie Klimek or Mrs. Nellie Sturmer, alleged perpetrators of a dozen poisonings, was a gala occasion, neighbors told police authorities. They are accused of killing relatives to collect insurance.

Prosecutor William McLaughlin gathered evidence that while one of Mrs. Klimek's husbands was ill, she sat beside his bed sewing on a mourning garb and assuring the patient he would not live.

"I found that Mrs. Klimek bought a coffin for \$30 as was a bargain," while her husband was still alive," McLaughlin stated. "After his death she played dance music on the phonograph in the room where the body lay."

The woman will appear for preliminary hearing on November 23. The evidence will be presented to the grand jury Friday.

# STONE LINES UP WITH SWITCHMAN'S UNION

Open Warfare Brewing For Some  
Time In "Big Four" Railroad  
Brotherhood Comes To Climax

## IS OPPOSED BY W. G. LEE

Cleveland, Ohio, Nov. 15.—Open warfare brewing for sometime in the "Big Four" railroad brotherhood came to a climax today with Warren F. Stone, grand chief of the brotherhood of locomotive engineers lined up with the switchmen's union of North America in an attempt to take switchmen members from the Brotherhood of Railroad Trainmen, headed by W. G. Lee.

With Stone in a new triple alliance which apparently was suggested, is T. C. Cassen, president of the switchmen, and D. B. Robertson president of the Brotherhood of Locomotive Firemen and Enginemen.

L. E. Sheppard, president of the order of railroad conductors is aligned with Lee.

Stone issued a circular appeal to all members of his organization to assist Cassen in bringing the 40,000 switchmen in Lee's organization over to the switchmen's union.

The break in the "big four" had its inception during the shopmen's strike.

Stone and Robertson informed members that when their lives were endangered by guards or defective equipment, to stay away from railroad property.

## WENT ABOUT DOING

GOOD: And Jesus went about all Galilee, teaching in their synagogues, and preaching the gospel of the kingdom, and healing all manner of sickness and all manner of disease among the people.—Matthew 4: 23.

## Increase Use of Autos

Nothing demonstrates the increased use of automobiles more than a comparison of the record of automobile license plates issued in 1913 and 1921. Eight years ago the total number of automobiles in use in Indiana was 44,738, according to the license plates issued. But in 1921 400,342 plates were taken out by automobile owners, an increase in eight years of 355,604 automobiles.

The growth of the use of the automobile for pleasure and business purposes forms an interesting study, but it is no more interesting than a history of the development of the state automobile department.

Indiana paid nineteen and one-half cents a pair for license plates in 1916 before the United States entered the war and when the price of steel was the lowest in history, being quoted at \$1.85 per hundred pounds. They were contracted for during the administration of Former Governor Ralston for the year 1917.

In 1918, during the world war when steel was quoted at \$7.00 per hundred pounds, the contract was let by Ed Jackson, secretary of state at eighteen and three-fourths cents a pair. The cost of plates in 1919, with steel at the same high price, was further reduced to sixteen cents a pair, and in 1920 and 1921, to twelve cents a pair. They are now being made at the state prison.

The present contract for license plates with the price of steel in 1921

quoted at \$4.00 per hundred pounds, was made at the lowest price in the history of the state automobile department, eleven to twelve cents a pair. Comparing the last four years with the first four years (1913 to 1917), it is found that the state has saved \$102,002.50 in the purchase of license plates.

In proof of the business administration of the department, the mat-the notary fees collected from the per attention. It was the rule before Governor McCray came into office that the notary fee collected from the automobile owners when they obtained licenses, were not retained by the state. In 1917 Mr. Jackson instituted the rule that all notary fees collected by the automobile department be returned to the general fund of the state. Since that time there has been rightfully returned into the state treasury a sufficient amount from notary fees alone to pay the salary of the secretary of state for the past five years, leaving a surplus of over \$3,000. The collection of fees in 1921 alone amounted to \$8,670.75.

## The Hodge-Podge

By a Paragrapher With a Soul

A pilotless airplane may be more dependable than one with a human pilot, but it will never be very popular for pleasure riding.

The county commissioners, who receive \$100 a year salary, wouldn't exactly put the county in the hands of a receiver if they did get a raise.

Mr. Wirth did very well to stick it out for nineteen months.

That Chicago saloon keeper who was robbed will not find much sympathy, especially among his customers.

Your best friends are not always the ones with whom you are the most intimate.

It's better to do your duty than to explain why you didn't.

Remember, that family jars are hard to produce when only one makes the noise.

## ENGLAND VOTES ON HOUSE OF COMMONS

There Will be 615 Seats in The New  
Parliament Division, 95 Less Than  
The Former One

ARE MILLION MORE VOTERS

Fate Of Lloyd George Will Be De-  
termined by Count of Ballots—  
Many Candidates Aspire

By J. W. T. MASON  
(Written for United Press)  
Voting began this morning in  
Great Britain for reelection of a new  
House of Commons. The polls will  
close at 8 p. m. and the result will  
be known some time tomorrow. The  
balloting is secret.

The votes will be counted in each  
constituency immediately after the  
closing of the polls and the suc-  
cessful candidates will be named to  
the waiting crowds. It is the British  
custom for all candidates in each  
constituency to hear the results to-  
gether and for the unsuccessful ones  
personally to congratulate the victor.

There will be 615 seats in the new  
Commons. This is 95 less than in the  
old parliament, due to the termina-  
tion of the south of Ireland repre-  
sentation, following the establishment  
of the Irish Free State. The protest-  
ant north of Ireland, however,  
will be represented in the Commons  
because the Ulstermen have refused  
to abandon their intimate imperial  
relationship. North Ireland has 13  
constituencies, England has 492,  
Scotland 74 and Wales 36.

Fifty-seven seats, including Lloyd  
George's, are not being contested.  
For the remaining 558 seats there are

## SHUSTER & EPSTEIN

Blue Front 115 W. Second St.  
"A little off Main street but it pays to walk."

1,266 candidates in the field. They  
are divided into six groups: Con-  
servatives, or Bonar Law Unionists;  
National Liberals or Lloyd George's  
party; Independent Liberals, or As-  
quith's party; Labor party, or mod-  
erate wing of the workingmen; In-  
dependents, embracing all who hold  
allegiance to none of the foregoing.

About thirty women are among the  
candidates, headed by Lady Astor,  
and including Lady Wintringham,  
Lady Cooper, Lady Howard Stepney,  
and Mrs. Arthur Bouchier, the ac-  
tress.

The election is being fought on a  
new register, which adds nearly a  
million voters to the number entitled  
to vote at the last previous election,  
in 1918. Eight million women will  
cast their ballots today for their  
second parliamentary election since  
their enfranchisement. The total  
number of persons entitled to vote  
approximates 22,000,000. At the  
1918 election, only fifty per cent. of  
the registered voters went to the  
polls. This was largely due to the  
fact that 106 constituencies were un-  
contested.

The chief interest in today's con-  
test, apart from the effort of the  
Conservatives to secure an absolute  
majority over all other parties, is  
in the showing that will be made by  
the Labor Party. Membership in  
British trades unions declined last  
year from 8,500,000 to 6,800,000,  
due partly to unemployment and  
partly to desertions by women work-  
ers.

There were 76 labor members in  
the last parliament. The labor lead-  
ers hope to secure 200 seats at to-  
day's elections and they will be  
greatly disappointed if they don't  
have at least 150. Should the num-  
ber be less than 100, the result will  
mean a violent turn on the part of  
the British voters against the radical  
platform of the laborites. If labor  
approximates 200 victories, probably  
nothing can prevent a labor govern-  
ment coming into power at the next  
following election.

Lloyd George's partisans are not  
expected to be numerous in the new  
House of Commons. If the Lloyd  
George liberals hold the balance of  
power, it will be surprising. To re-  
gain his political prestige. To re-  
George will probably have to form an  
amalgamation with another party.  
Whether he will unite with the As-  
quith Liberals, or with the Con-  
servatives he doubtless doesn't know  
yet, himself.
